BPM Continues to Exceed AIB International's Food Safety Standards

Peshtigo, Wisconsin – May 15, 2015 – BPM Inc., a top provider of high quality flexible packaging for the food and confectionery industries, announced today that its production facility has received recognition of accomplishment for fulfilling the requirements of AIB International's Consolidated Standards for food safety.

AIB International provides a comprehensive list of audits and inspections. AIB International audits are backed by more than 60 years of experience in the field for food manufacturing, beverages, ingredients and packaging. AIB International's services are used by many of the world's largest and most influential food manufacturers, distributors and food service operators. AIB International conducts audits in more than 120 countries covering producers ranging in size from multinationals to small, independent producers. In addition to the inspection of BPM's facility in March 2015, the company has been consistently recognized for several consecutive years for fulfilling the requirements of AIB International's Consolidated Standards for food safety.

BPM Inc. has received recognition of accomplishment for fulfilling the requirements of AIB International's Consolidated Standards for food safety.

"AIB International has rigorous standards established for food safety and BPM works hard to meet and exceed all requirements. AIB is widely recognized in the industry for these types of inspections and audits," said Rod Wiltzius, Production Manager. "Customers want to know that proper procedures and assessments are in place to ensure cleanliness during the production process, and with AIB, customers can be assured of BPM's commitment to food safety."

BPM is a leading manufacturer of specialty papers and converted materials for the packaging, food service and confectionery industries. BPM offers full-service toll printing and the ability to add wax and polymer coating to products. The environmentally-focused company also produces uncoated fine papers, Envirographic™ 100 which are 100% pcw recycled paper for the printing industry. www.bpmpaper.com
